MRAC supplies the base station at the Sentinel Building...we need more operators...also an additional ham operator to ride with a Sentinel truck driver all week...we have two...need one more. NEXT REGULAR MEETING OF MRAC is scheduled for Thursday September 8, 1983

MRAC FILED OUR OBJECTIONS to the FCC's moves to de-regulate amateur radio and particularly to the proposed NO-CODE license. We are not alone in opposing deregulation of FCC technical standards. At the National Association of Broadcasters (NAB) Convention at Los Vegas last month, the broadcasters were objecting to proposed relaxations in their standards!!!!

Seems we need regulations. Would you like to see tests for auto drivers licenses eliminated?
